THERE is nothing quite so simple these days as putting on a so-called musical show that will "catch the town" in its mad rush for entertainment. The theatrical manager with an eye to pretty girls has only to look around the corner to find the prettiest girls in the world.

New York is famous for them. Scene painters and costumers are gorgeoushas only to play off old scores to find of the church festivities, he tosses a his work done. Then a few vaudeworld becomes a roay apple.

managers perform when they thing new to amuse the crowd that actors were "discovered" in a Harlem ines up at the box-office.

What do they know about hardworking people in the two-a-day working people in the two-a-day world? It is so near and yet so far! Belasco delights to tell of sitting in the gallery and discovering "taient" in humble players. But I have neticed that even he shares the common falling for an orchestra seat on an "off-night." Belasco, of course. But how do they turn the trick? an "off-night." Belasco, of course, sloppy painters are so ridiculous that they remind us of the pranks we vaudoville game. There are other men of the theatrical world, how-ever, who always have an eye on Haley Sisters are unintentionally the vandeville field. For example the vaudeville field. For example,

toolishness.

Losmint shrivels up any hard oora, soft oen or toughened callous so that it can be picked out easily with the fingers. It is the real Japanese secret for line, healthy, little feet. Prevents foot odors and keeps them sweet and healthy. Try it. It is selling like 'wildfire' here. Just eak in any drug store for a small jar of ice-mint, which will cost little, but will do the work quickly. Ice-mint acts so gently, so magically, that the old-fashioned and dangerous method of cutting corns or applying eating plaaters seems harbarous. You'll say so yourself.—Advt.
